## **INDEPENDENT AUDITORS' REPORT**

Board of Directors Bel Marin Keys Community Services District Novato, California

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Bel Marin Keys Community Services District, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Bel Marin Keys Community Services District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to Bel Marin Keys Community Services District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Bel Marin Keys Community Services District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Bel Marin Keys Community Services District, as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-8 and page 24-25, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

This section of Bel Marin Keys Community Services District's (the District's) basic financial statements presents management's overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. The information presented in this section should be considered in conjunction with that presented in the letter of transmittal and the notes to the financial statements.

## Financial Highlights

The District's assets exceeded its liabilities by \$2,308,014 at June 30, 2016; this amount is identified as the District's net position.

The District's net position increased by \$557,033 from 2015 and this increase is the Change in Net Position of \$557,033 reflected in the Governmental Activities column of the Statement of Activities shown in Table 2.

## **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements, which consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements.

#### Government-wide Financial Statements

Government-wide financial statements are designed to give users a broad overview of the District's finances, in a manner similar to that of a private-sector business and are prepared on the full accrual basis, which means they measure the flow of all economic resources of the District as a whole. They provide a longer-term view of the District's activities and comprise of the Statement of Net Position and the Statement of Activities. The Statement of Net Position presents information on all of the District's assets and liabilities, with the net difference between the two reported as net position. The Statement of Activities provides information about all of the District's revenues and all of its expenses, also on the full accrual basis, with the emphasis on measuring net revenues or expenses of the District's programs. The Statement of Activities explains in detail the change in Net Position for the year.

The Statement of Net Position and the Statement of Activities presents information about the following:

*Governmental Activities* - The District's basic services are considered to be governmental activities. Its primary purpose, as a Community Services District established pursuant to the Government Code 61600, includes, but is not limited to: providing improvements and maintenance to the lagoons and perimeter levees, landscaping in the parks, vista areas and ends of cul-de-sacs, the water quality within the lagoons, the navigational locks, the fish screens and other waterway related assets located within the District service area. The District is primarily funded by taxes imposed on District residents and through Bond issues that have been approved by the residents.

## Fund Financial Statements

The Fund Financial Statements report the District's operations in more detail than the Government-wide statements and focus primarily on the short-term activities of the District's General Fund. The Fund Financial Statements measure only current revenues and expenditures and fund balances. The Fund Financial Statements provide detailed information about the District's General Fund and each major fund.

Governmental Fund Financial Statements are prepared on the modified accrual basis, which means they measure only current financial resources and uses. Capital assets and other long-lived assets, along with long-term liabilities, are not presented in the Governmental Fund Financial Statements.

#### Notes to the Basic Financial Statements

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the basic financial statements begin on page 15 of this report.

## **Required Supplementary Information**

On page 24 and 25, the budget to actual comparison for the general fund and Measure D fund is presented as required supplementary information.

#### Financial Analysis of the District as a Whole

The District's net position at June 30, 2016 is \$2,308,014. The following table provides a summary of the District's net position:

The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The District maintains a current ratio of 4 to 1 at June 30, 2016 compared to 4 to 1 at June 30, 2015. These ratios illustrate the District's positive ability to pay its current obligations with current resources.

The District also reported positive balances in net position for the current year. Total net position increased by \$557,033 or 32% during the year.

Approximately 62% of the District's assets are invested in capital. The District's uses these capital assets to provide services to its citizens in providing maintenance of waterway, levee, locks, parks and other facilities within Bel Marin Keys. The portion of total assets that is capital has decreased slightly, from 63% to 62% from 2015 to 2016 as assets continue to be depreciated over their expected lives and the District disposes of idle capital assets.

The Statement of Activities presents general revenues, program revenues and expenses in detail. All of these are elements in the Change in Net Position of Governmental Activities summarized below.

As Table 2 above shows, total General Fund expense was \$591,944 in fiscal year 2016, which decreased by \$17,737 compared to \$609,681 in fiscal year 2015. The increase in the General Fund expense was due mainly to the increase in service and supplies costs.

Total Measure A expense was \$36,835 in fiscal year 2016, which increased by \$35,047 compared to \$1,788 in fiscal year 2015. The increase in the Measure A expense was due mainly to the increase in expenditures for parks and open space.

Total Measure D expense was \$389,204 in fiscal year 2016, which increased by \$66,528 compared to \$322,676 in fiscal year 2015. The increase in the Measure D expense was due mainly to the decrease in maintenance and utilities and capital outlay expenses.

Total Measure E and F project expense was \$140,387 in fiscal year 2016, which decreased by \$193,945 compared to \$334,332 in fiscal year 2015. The decrease in the Measure E and F project expense was due mainly to the decrease in levee repair and maintenance and other project expenses.

Also as Table 2 above shows, program revenue was \$9,050 (1%) in fiscal year 2016 compared to \$5,885 (1%) in fiscal year 2015.

In fiscal year 2016, \$550,340 of the District's General Fund revenue came from property tax revenue, interest income and other income which increased by \$11,719 compared to \$538,621 in fiscal year 2015.

Measure A's general revenues come from sales tax revenue of \$53,351 in fiscal year 2016, which increased by \$1,225 compared to \$52,126 in fiscal year 2015. Measure A's general revenues are restricted for Measure A's parks and open space expenditures.

Measure D's general revenues consist of parcel taxes, interest income, investment income and other income of \$469,739 in fiscal year 2016, which increased by \$14,478 compared to \$455,261 in fiscal year 2015. Measure D's general revenues are restricted for Measure D expenditures

Measure E and F's general revenues consist of special tax revenue and interest income of \$686,274 in fiscal year 2016, which decreased by \$3,055 compared to \$689,329 in fiscal year 2015 and are restricted for debt service and project expenditures.

General Fund revenues totaled \$506,039 in 2016, increased by \$13,659 in comparison with \$492,380 in the prior year due primarily to the increase in property tax income and parcel tax income.

Measure A revenues were \$53,351 in 2016, an increase of \$1,225 in comparison with \$52,126 in the prior year due mainly to the increase in Measure A revenue from sales tax.

Measure D revenues were \$469,739 in 2016, an increase of \$13,006 in comparison with \$455,261 in the prior year due mainly to the increase in parcel tax income and investment income.

Measure E and F revenues were \$686,274 in 2016, a decrease of \$3,055 in comparison of \$689,329 received in 2015. Measure E and F revenues were special tax income received to pay for measure E and F bonds and projects costs.

General Fund expenditures were \$408,838 in 2016, an increase of \$31,303 in comparison with \$377,535 in the prior year due mainly to the increase in community center, maintenance and capital outlay.

Measure A expenditures were \$36,835 in 2016, an increase of \$35,047 in comparison with \$1,788 in the prior year due mainly to the increase in Measure A park expenses.

Measure D expenditures were \$347,513 in 2016, an increase of \$82,190 in comparison with \$265,323 in the prior year due mainly to the increase in waterway maintenance costs.

Debt service and project E and F expenditures were \$882,325 in 2016, a decrease of \$4,528,265 in comparison of \$5,350,590 paid in 2015. The significant amount of debt service expenditures in 2015 was due to the District's payoff of Measure E and F special tax bonds principals and refinancing those measure bonds with commercial term loans with Bank of Marin.

Other financing source was \$0 in 2016 compared to \$4,550,000. The significant amount of other financing source in 2015 was the loan proceeds of \$4,550,000 from Bank of Marin commercial term loans received in 2015.

## **Budgetary Highlights**

Comparisons of Budget and Actual financial information are presented for the General Fund and Measure D in these financial statements. In the General Fund, actual revenue was \$154,020 higher than the budgeted amount. Total expenditures were \$71,725 higher than budgeted amounts. This was primarily due to capital outlay expenditures for building improvements that were not included in the budget as well as Measure A expenses, and maintenance costs for the projects completed during fiscal year 2015-2016.

In Measure D, actual revenue was \$28,332 higher than the budgeted amount due to more parcel taxes and investment income received in fiscal year 2015-2016. Total Measure D expenditures were \$107,949 higher than budgeted amounts. This was primarily due to an increase of expenditures for water circulation expenses, maintenance and capital outlay expenditures.

## Capital Assets and Debt Administration

#### Capital Assets

The District's capital assets, net of accumulated depreciation decreased this year by \$70,594 to \$3,814,492 compared to \$3,885,086 in 2016. Most of the District's capital assets are projects completed and transferred from Measure D, E and F. The decrease is the net effect of capital asset additions of \$205,898 net with depreciation expense of \$276,492. While capital assets additions are the capital outlay expenditures in the Fund financial statements, they are recorded as an increase in the District's capital assets in the Government-wide financial statements that reduce the District's capital assets; they are not recorded as expenditures in the Fund financial statements. The composition of the District's capital assets is described in detail in Note 4 to the financial statements.

## Debt Administration

The District's long-term obligations consist of a lease-finance agreement between the District and PG&E and two commercial term loans with Bank of Marin in the District's name to finance Measure E and Measure F Special tax bonds for the District's marine facilities No. 2014-1 and 2014-2. The PG&E loan balance was \$26,354 in 2016 and \$29,989 in 2015. The commercial term loans with Bank of Marin balance was \$3,771,591 in 2016 and \$4,295,691 in 2015.

The District's long-term debts decreased this year by \$527,735 due to a \$3,635 payment on the PG&E loan and a \$524,101 payment on the commercial term loans with Bank of Marin.

The District made all scheduled repayments of existing debt. The District's debt issues are discussed in detail in Note 6 to the financial statements

#### Economic Outlook

The economic condition of the District as it appears on the balance sheet reflects financial stability. District management remains committed to sound fiscal management practices in its delivery of excellent service to the residents of the District.

## Bel Marin Keys Community Services District Reconciliation of the <u>NET CHANGE IN STATEMENT OF REVENUES, EXPENDITURES AND</u> <u>CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS</u> with the <u>STATEMENT OF ACTIVITIES</u> For the Fiscal Year Ended June 30, 2016

The schedule below reconciles the Net Changes in Fund Balances reported on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance, which measures only changes in current assets and current liabilities on the modified accrual basis, with the Change in Net Position of Governmental Activities reported in the Statement of Activities, which is prepared on the full accrual basis.

#### NOTE 1 - DESCRIPTION OF BEL MARIN KEYS COMMUNITY SERVICES DISTRICT

Bel Marin Keys Community Services District (the District) is a separate governmental unit established in 1961 under California Government Code 61600 and covers 3,200 acres of Bel Marin Keys, an unincorporated residential community in northern Marin County, adjacent to the City of Novato. The District maintains the parks and public areas, contracts for street lighting and controls and maintains the lagoons, levee and navigational locks. The District maintains a full-time manager, and is governed by a five-person Board of Directors, elected by the citizens of the District.

#### NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

The District's basic financial statements are prepared in conformity with U.S. generally accepted accounting principles (GAAP). GAAP statements require the application of all relevant Governmental Accounting Standards Board (GASB) pronouncements. GASB is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the U.S.A. The financial statements have incorporated all applicable GASB pronouncements.

#### A. <u>Reporting Entity</u>

The District is governed by an elected Board of Directors that exercises the powers allowed by state statutes. For financial reporting purposes, the District has included only the District's funds in its basic financial statements. The District has no component units for which the District is financially accountable. The District has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by, or dependent on, the District.

#### B. Basis Financial Statements

Basic financial statements are presented at both the government-wide and fund financial level.

## Government-wide Financial Statements

The District's financial statements reflect only its own activities; it has no component units (other government units overseen by the District). The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. The governmental activities of the District are primarily financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include grants and contributions that are restricted to meeting the operational needs of a particular program. Revenues that are not classified as program revenues, including all tax revenue, are presented as general revenues.

#### Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. The District has the General Fund, which accounts for the District activities; Measure D Special Revenue Fund which accounts for the waterway's activities; and Debt Service Funds for Measure E and F which account for the marine facilities of the Community Facilities District No. 2014-1 and 2014-2.

## NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

#### C. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the full *accrual basis* of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are *incurred*, regardless of when the related cash flows take place.

Governmental funds are reported using the *current financial resources* measurement focus and the *modified accrual* basis of accounting. Under this method, revenues are recognized when "measurable and available." The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as *expenditures* in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as *other financing sources*.

Those revenues susceptible to accrual are property tax, certain charges for services and interest revenue. The District may fund programs with a combination of cost-reimbursement grants, categorical block grants, and general revenues. Thus, both restricted and unrestricted net position may be available to finance program expenditures. The District's policy is to first apply restricted grant resources to such programs, followed by general revenues if necessary.

#### D. Budgets

The District's budget, as included in these financial statements, represents the budget approved by the Board of Directors. The adopted budget is made for the organization as a whole. The District uses the same basis of accounting for budget and financial statement purposes. All appropriations lapse at yearend. General Fund expenditures exceeded appropriations by \$71,725. Measure D expenditures exceeded appropriations for the Measure D fund by \$107,949, both of which were mainly due to under budget of capital outlay expenditures and unexpected maintenance projects. Measure A's budgeted revenue and expenditures were included in the General Fund. The District did not adopt a separate budget for Measure A.

## E. Restricted Assets

Cash and investments that may only be used for construction of capital assets, special projects or debt service principal and interest payments in accordance with applicable laws and regulations have been reported as restricted cash and investments on the government-wide Statement of Net Position.

#### F. Capital Assets

Expenditures from governmental funds for the acquisition or replacement of equipment are charged to current operations in the period acquired. On an entity-wide basis, capital assets are capitalized and depreciated over their useful lives. The useful life of District capital assets ranges from 3 to 40 years. Depreciation is calculated on a straight-line basis. District policy has set the capitalization threshold for reporting capital assets at \$5,000.

## NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

## G. Compensated Absences

Beginning October 2004, with the revision of the Employee Handbook, the District provided its employees with 10 days of vacation per year for the first 2 years of employment and 15 days per year after 2 years of employment. The employee is allowed to accrue a maximum of 160 hours of vacation time. In addition, the employees accrue 6 days of sick leave per year with no maximum on the amount that may be accrued.

#### H. Net Position

The Statement of Net Position breaks out net position as follows:

*Restricted* describes the portion of Net Position that is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions that the District cannot unilaterally alter.

Unrestricted describes the portion of Net Position that is not restricted from use.

*Invested in Capital Assets, net of related debt,* describes the portion of Net Position that is represented by the current net book value of the District's capital assets, less the outstanding balance of any debt issued to finance these assets.

Net Position represents the difference between assets and liabilities. Net Position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net Position is reported as restricted when there are limitations imposed on use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### I. Fund Balance

The accompanying financial statements reflect certain changes that have been made with respect to the reporting of the components of fund balances for governmental funds. In previous years, fund balances for governmental funds were reported in accordance with previous standards that included components for reserved fund balance, unreserved fund balance, designated fund balance, and undesignated fund balance. Due to the implementation of GASB Statement No. 54, the components of the fund balances of governmental funds now reflect the component classifications described below. In the fund financial statements, governmental fund balances are reported in the following classifications:

<u>Nonspendable fund balance</u> includes amounts that are not in a spendable form, such as prepaid items or supplies inventories, or that are legally or contractually required to remain intact, such as principal endowments.

<u>Restricted fund balance</u> includes amounts that are subject to externally enforceable legal restrictions imposed by outside parties (i.e., creditors, grantors, contributors) or that are imposed by law through constitutional provisions or enabling legislation.

## NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (concluded)

## I. <u>Fund Balance</u> (concluded)

<u>Committed fund balance</u> includes amounts where use is constrained by specific limitations that the government imposes upon itself, as determined by a formal action of the highest level of decision-making authority. The Board of Directors serves as the District's highest level of decision-making authority and has the authority to establish, modify or rescind a fund balance commitment via minutes action.

<u>Assigned fund balance</u> includes amounts intended to be used by the District for specific purposes, subject to change, as established either directly by the Board of Directors or by management officials to whom assignment authority has been delegated by the Board of Directors.

<u>Unassigned fund balance</u> is the residual classification that includes spendable amounts in the General Fund that are available for any purpose.

When expenditures are incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) fund balances are available, the District specifies that restricted revenues will be applied first. When expenditures are incurred for purposes for which committed, assigned or unassigned fund balances are available, the District's policy is to apply committed fund balance first, then assigned fund balance, and finally unassigned fund balance.

The Board of Directors establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Directors through adoption or amendment of the budget as intended for a specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

## J. Property Taxes

The County of Marin levies taxes and places liens on real property as of January 1 on behalf of the District. Secured property taxes are due the following November 1 and March 1 and become delinquent April 10 and December 10, for the first and second installments, respectively. Unsecured property taxes are levied throughout the year.

#### K. Sales Taxes

The District received an allocation of sales tax from County of Marin to be used for pet stations, Montego Park Irrigation, and for park, playground and picnic area improvements. The District maintains Measure A funds in a separate bank account and restricted Measure funds are to be used for the above specific projects only.

## L. Use of Estimates

In preparing the financial statements, management is required to make estimates and assumptions that will affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

## NOTE 3 - <u>CASH AND INVESTMENTS</u>

The District has a written investment policy, approved by the Board of Directors. The District also has an investment committee, which performs regulatory oversight for its investments as required by California Government Code Section 27134.

The District's investment policy authorizes the District Manager to invest in:

- Obligations of the U.S. Treasury, its agencies and instrumentalities;
- Certificates of deposit;
- Commercial paper rated in the highest short-term rating category by any Rating Agency, bankers' acceptances, obligations issued by any corporation organized and operating within the United States of America having assets in excess of \$500,000,000 and rated A or better by any Rating Agency;
- Money market funds;
- Investment Agreements.

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government code. District investments that are greater than 5 percent of total investments are in either an external investment pool or mutual funds and are therefore exempt.

Cash and investments as of June 30 consist of the following:

| Governmental Funds:                                 |                     |                     |

## Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for deposits and investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

## NOTE 3 - CASH AND INVESTMENTS (continued)

California Law requires banks and savings and loan associations to pledge government securities with a market value of 110% of the District's cash on deposit or first trust deed mortgage notes with a value of 150% of the deposit as collateral for these deposits. Under California Law, this collateral is held in the District's name and places the District ahead of general creditors of the institution.

#### Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that in the event of the failure of a counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The District's investment policy does not contain legal or policy requirements that would limit the exposure to custodial risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities.

#### Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensibility of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter-term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensibility of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity at June 30, 2016 and 2015:

## NOTE 3 - <u>CASH AND INVESTMENTS</u> (concluded)

#### Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. That is measured by the assignment of rating by a nationally recognized rating organization. Presented below is the minimum rating required by the California Government Code, and the actual rating as of fiscal year-end for each investment type at June 30, 2016 and 2015:

| Fiscal year 2015-2016                    |                    | Minimum          | Exempt  | Rating as of Fiscal Year End                  |                        |                      |  |  |
